

PSHE VISION

At North, we believe that nurturing physically and mentally healthy children is vital to all aspects of their learning and development. Our PSHE Curriculum will help guide our pupils to become self-confident and independent with an awareness of their rights and responsibilities as part of a diverse society.

They will have the opportunity to: Learn how to contribute; Learn strategies to feel good about themselves; Learn how to develop healthy relationships; develop a critical mindset; develop their own well being, find physical, emotional, online and social safety. and enjoy and achieve their goals .

The impact of our PSHE curriculum is measured against the standardised descriptors laid out in the DfE's 'Statutory RSHE guidance' as agreed in the Ealing curriculum. The impact of our PSHE curriculum is also seen in the way pupils interact with others, the way in which they can keep themselves mentally and physically healthy, the respect pupils have for other people and the way in which pupils can keep themselves and people around them safe.

To promote retrieval practice and implement vocabulary learnt in the past, at North we use PSHE journals. These books follow the students from the start of their education all the way until they leave Primary School. This way, children can make constant use of what they've learnt in the past and build up new knowledge on top of it. PSHE is taught as a discrete lesson once a week but also forms an integral part of the values and ethos of our school.
