

Art and Design Vision

At North Primary, we believe art and design supports our children's personal, social, moral, spiritual, cultural, and creative growth. It allows a child's imagination to grow, develop their ability to make connections and record their thoughts and ideas. Art teaches children to express themselves and think visually, supporting their learning in other subjects. Pupils learn a variety of transferable intellectual and practical skills through art. It teaches children how to utilise and understand a wide range of tools and resources. We believe it is a vital part of the primary school curriculum as it helps children become better observers of the world around them and develop essential life skills.

The content of our teaching and learning is built upon the art and design national curriculum. At North, we ensure that all pupils:

- Produce creative work, exploring their ideas and recording their experiences
- Become proficient in drawing painting and sculpture and other art, craft and design techniques
- Evaluate and analyse creative works using the language of art, craft and design
- Know about great artists, craft makers and designers, and understand the historical and cultural development of their art forms.

We aim to:

- Enable the children to communicate what they see, feel and think.
- Experiment with their ideas, their use of colour, texture, form, pattern and different materials and processes.
- Self-evaluation of work is encouraged and children are taught how to be resilient to achieve their goals.

Children will learn to appreciate the work of other artists, to use a variety of materials to a high standard, and, most importantly, to enjoy expressing themselves through a variety of mediums and styles.
